WEDNESDAY, JUNE 8. 1743.

Rome, May 25.

THE Pope ſet out Yeſterday about Noon for Caſtel Gandolfo. The Departure of Card. Aquaviva, who is to hold the young Princeſs at the Font, is fixed for Naples on Tueſday next; and Cardinal Pico, it is thought, will ſoon go to the other World, having already received Extreme Unction. The Duke of Modena, ſince his being declared General of the Spaniſh Army, has only made farther Diſpoſitions for Flight, and not without Cauſe; it being very evident, that Count Traun is reſolved to follow him with the Auſtrian Army, which is already advanced to Bologna. We have publiſhed here the Decree for the Canonization of the bleſſed Benedict de Filadelfa, of the Order of Reformed Franciſcans. The Marqu's Poleni having carefully ſurveyed the Cupola of St. Peter's, is of Opinion, that it is far from being in ſo bad a Condition as our Architects reported it. The Saxon Noblemen who are going to Naples in order to direct the working Mines there, have, at his Holineſs's Requeſt, examin'd ſome Places in the Eccleſiaſtical State, and have reported, that there are very conſiderable Veins of Lead, Iron, and Silver; upon which it is ſaid, a Company will ſoon be erected here, and undertake to work them on a joint Stock.

Naples, May 21. The Queen is as well as can be expected, and the young Princeſs, ſince ſhe has had another Nurſe, is grown fat and thrives exceedingly. The Works erected on the other Side the Bridge of St. Magdelen were finiſh'd laſt Week, and furniſh'd with ſeveral Pieces of Cannon, of thoſe brought from Manfredonia; and, at the ſame Time, vaſt Quantities of Ammunition were carried to our Caſtles. It is impoſſible to add any Thing to the Precautions already taken, for ſecuring this City from any Inſult, and yet we talk of adhering ſtrictly to the Neutrality, to avoid provoking the Engliſh, of whom we ſeem as much afraid as ever. This is thought to be owing to the Diſaffection of the People, which is ſo great as to occaſion very many Councils, at which the King regularly aſſiſts; but the Reſolutions taken in them are kept exceſſively ſecret, and People are forbid, under the ſevereſt Penalties, to talk of Publick Affairs. We go on raiſing with the utmoſt Diligence the 12,000 new Troops, and it is thought they will be complete by the End of June. A Malteſe Man of War, of 60 Guns, is juſt arrived in our Port, on board of which is to embark our new Ambaſſador for the Court of Madrid.

Dreſden, June 6. The Count de Bellegarde returned hither the 30th of laſt Month from Prague, whither he was ſent by the King, to compliment the Queen of Hungary on her Arrival. On the 31ſt the Nuncio Pooluci took Leave of this Court, and ſet out for Prague. The Count de Eſterhaſi, Miniſter Plenipotentiary from her Hungarian Majeſty, returned hither from Prague the Day before Yeſterday, and Yeſterday he had an Audience of their Majeſties. It is given out ſtrongly, and indeed it is generally believed here, that all Differences between this Court and that are abſolutely adjuſted, by a Definitive Treaty under the Mediation of the King of Great Britain. This ſeems to explain the mighty Hurry of Couriers running backwards and forwards, which was ſome time ago remarked at our Court. His Majeſty has aſſured the Poliſh Nobility, that his Miniſter at the Port ſhall inſiſt vigorouſly on the Head of their Demand for Satisfaction for their Loſſes ſuſtained by the March of the Turkiſh Forces and Artillery thro' their Territories during the laſt War. Prince Lobkowitz has taken the famous Partizan Francis Jacob, with about 40 of his Men. The cloſe Intercourſe between our Court and that of Pruſſia ſtill ſubſiſts.

Berlin, May 8. His Majeſty continues to apply himſelf very aſſiduouſly to Buſineſs. He ſpends the Mornings uſually with his Miniſters, and ſhews ſo great an Equality in his Behaviour, that it is impoſſible to ſay he has any Favourite. We have been, for ſome time, a little perplex'd as to the Affairs of the North; our cloſe Engagements with Ruſſia would have obliged us to have taken ſome Share in the War, in caſe Sweden had prevailed on any of her Neighbours to have attacked her. But theſe Fears are now in a great Meaſure at an End, ſince it is the receiv'd Opinion here, that a Peace in the North is at Hand, that Sweden muſt be content with the Terms preſcrib'd to her, and Denmark accept of the Guaranty of the Duchy of Sleſwick, and the Renunciation of Sweden to Bremen and Verden, in lieu of her Pretenſions in favour of the Hereditary Prince. As to the Tranquillity of Germany, which has ſo much occupied his Majeſty's Thoughts, we believe it on the Point of being adjuſted on the Terms propos'd at the Treaty of Breſlau. We are the rather perſuaded of this, by the peculiar Reſpect the King pays to the Earl of Hindford and the Marquis de Botta, who are better receiv'd than ever.

Frankfort, June 11. We have no longer any private Letters from Munich, which is a bad Sign. The laſt we had, inform'd us, that the Croats having been refus'd Admittance at Nattembergh, where the Bavarians had a great Hoſpital, they, at their going away, ſet fire to ſome Outhouſes, which occaſioned the burning beſt part of the Town, in which, at leaſt, 6 or 700 poor ſick and wounded People miſerably periſhed, at which the Auſtrians expreſſed great Concern. We are told here, that the Auxiliary Army will very ſpeedily move into the Country of Darmſtadt, to prevent the French from drawing thence, as they do at preſent, all the Forage and Proviſions. His Britannick Majeſty is expected here in nine or ten Day's time, and then we ſhall certainly know the Fate of Germany. The French are viſibly diſconcerted by the laſt Motions of the Allies, as their Affairs were ruined in Bavaria by the Alacrity of the Auſtrians. M. de Piazazki, who went to Verſailles from his Imperial Majeſty, demanded, and obtained a Reinforcement. But the Auſtrians having previous Information of this, unexpectedly open'd the Campaign, and have done their Work before the Arrival of this Reinforcement.

Extract of a private Letter from Paris, June 9.

'All the News we have from Bavaria, continues to be 'very diſagreeable. Our Letters from thence aſſure us, 'that a Separate Peace is negociating at Hanover between 'the Emperor and the Queen of Hungary, which can'not but be prejudicial to us. What yet gives us greater 'Pain, is the Diſpatches juſt arrived from the Rhine, by 'which we learn, that as ſoon as it was known that 'M. Noailles had Orders to detach a Body of Troops 'into Bavaria, 800 deſerted in a ſingle Week. This 'conſtrained the Marſhal to publiſh a Proclamation, 'threatning to break ſuch Deſerters as ſhould be taken, 'and expoſe them alive on the Wheel.

'It is not however known, whether, after all, any 'ſuch Detachment will be ſent, ſince we are informed, 'that, upon the Loſs of Deckendorff, the Emperor 'ſhew'd an Inclination to comply with the Conditions 'offer'd by the Queen of Hungary. Beſides, a ſmall Succour will, as Things now ſtand, be of no Uſe; and 'M. Noailles, ſince the Auxiliaries have paſſed the Main, 'will ſcarce think it adviſable to weaken his Army by 'ſending a very ſtrong Supply, when the Allies are 'within five Leagues of him, and their Troops daily increaſing.

'Since the King returned from Choiſi, the Prince de 'Campo Florido, and the Marquis de Solari, have been 'oftner at Court than uſual; whence it is conjectured 'ſome Treaty is on Foot between Spain and Sardinia; 'and it is alſo ſuppoſed, that with a View to this, Cardinal Tencin was again brought into Buſineſs, becauſe 'the King of Sardinia was known to have a great Confidence in him.'

From the London Gazette.

Whitehall, June 6. Capt. Carteret, Commander of his Majeſty's Ship the Greyhound, cruizing in the Channel, met with a Dutch Man of War on the firſt Inſtant, called the Middleburgh, which left Curacoa on the 19th of April, O. S. and brought Letters from Capt. Knowles, who commands a Squadron of his Majeſty's Ships in thoſe Seas, dated at Curacoa the 18th of March, giving an Account, that purſuant to the Reſolutions taken at a Conſultation of all the Captains of the Ships, and commanding Officers of the Land-Forces with him, he proceeded to La Guira, in order to attack the Town, and ſeize or deſtroy the Ships and Veſſels which lay in the Road; and accordingly, on the 19th of February, about One o'Clock in the Afternoon, the Burford, which led the Van, began the Attack, and in leſs than an Hour the whole Squadron were at Anchor, Cannonading the Town with great Briskneſs, and by Three of the Clock had made the Enemy ſlacken their Fire very much, ſo as only now and then to fire a Gun; but the Burford having received many dangerous Shots between Wind and Water, and her Cables being cut, ſhe fell out of the Line, and driving on board the Norwich, obliged her, and the Altham, to quit the Line too, and the Force of the Current drove them a great Way to Leeward, which animated the Enemy to return to their Batteries, and renew their Fire. The reſt of the Squadron continued Cannonading, not without Hopes of Succeſs, as a Shell had fallen into one of the largeſt Batteries on the Side of the Hill, which blew up the Magazine, and ſet it on Fire; but Night coming on, put an End to the Action. The next Day Capt. Knowles ſent in Queſt of the damaged Ships, which were driven to Leeward out of Sight, to come up and join him; and cruized ſeveral Days off and on the Coaſt, in Expectation thereof; but hearing on the 3d of March, that they were got into Curacoa to refit, he followed them, and arrived the 4th, where the whole Squadron repaired their Damages, and had got a great Number of Voluntiers. In the above-mentioned Attack, Capt. Luſhington was mortally wounded, and died ſoon after his Arrival at Curacoa, regretted by every Body; in whoſe Death the Publick has loſt a gallant worthy Officer. There were likewiſe killed one Lieutenant, and 92 Men; and 308 wounded.

The Dutch Captain told Capt. Carteret, that Captain Knowles ſailed from Curacoa the 1ſt of April, N. S. with 11 Sail of Ships, for Porto Cavallo.

Concerning Gleets *and* Seminal Weakneſſes *of all Kinds.*

ALL judicious Phyſicians and Surgeons allow, that nothing is more difficult to cure than Stubborn Gleets and Seminal Weakneſſes, whether occaſion'd by too ſevere purging for Venereal Injuries, violent Strains, Pollutio ſui, or any other Cauſe whatever; and that they are dangerous in their Conſequences, as well as difficult to cure, is as certain, ſince they exceedingly weaken the Generative Faculties, infeeble the whole Nervous Syſtem, often bring on Hectick Heats, a Tabes Dorſalis, or Conſumption of the Back, or an Atrophy or Nervous Conſumption, which frequently terminate in Death itſelf.

All ſuch, therefore, who have the Misfortune to be troubled with Old or Stubborn Gleets, Seminal Effuſions, Involuntary Emiſſions, exceſſive Nocturnal Pollutions, or any Weakneſs of the Kidneys, Ureters, or Bladder, the Diabetis, or Incontinency of Urine, or Difficulty of holding their Water, would doubtleſs be glad to meet with a certain, ſafe, and ſpeedy Cure, which they moſt aſſuredly may, by taking only a ſmall Quantity of a tranſcendent BALSAMICK RESTRICTIVE ELECTUARY, now publiſhed for a general Good, after having for many Years been experienc'd never once to fail perfectly curing the moſt Stubborn Gleets known, in a few Days, without Difficulty or Trouble; as alſo all other Weakneſſes of the Back, Reins, Seminal Veſſels, and Urinary Paſſages, whichit almoſt inſtantly cures, bringing to rights and reſtoring all thoſe Parts and Paſſages to their natural Tone and priſtine Vigour, in a very extraordinary Manner, and by taking a few Doſes of it only.

This tranſcendent BALSAMICK RESTRICTIVE ELECTUARY is neither diſagreeable to take, nor occaſions the leaſt Diſorder, but is a wonderful Reſtorative in all Weakneſs and Decay of Conſtitution of any Kind, and particularly ſtrengthens the Back, Reins, Seminal and Urinary Veſſels to an immenſe Degree, inſomuch that in any Debility of them, one Doſe of it does more than ten of any other Remedy yet found out; and all Perſons fatigu'd with Gleets or Seminal Weakneſſes of any Sort, or Weakneſſes of the Urinary Veſſels, who take it, will in three Days time find it ſo very effectual, that they will be moſt agreeably ſurpriſed at it.

When a Medicine will infallibly accompliſh ſuch a ſafe, ſpeedy and perfect Cure of ſuch difficult Maladies, as Gleets and Seminal Weakneſſes are, as this Great Remedy truly and directly will, even after all other Means and Medicines have been tried in vain; too much cannot be ſaid in it, and this All who ever took it for any of the above-mention'd Purpoſes, have readily declared.

The Price is but 6 s. a Pot, altho' for its abſolute Efficacy, one Pot alone being ſufficient in moſt Caſes to accompliſh a Cure, worth ten times as much, and by the Author's ſpecial Appointment, is to be had only at Mr. Radford's Toy-ſhop, at the Roſe and Crown againſt St. Clement's Church-Yard in the Strand, ready ſealed up, with a Book of Inſtructions, which whomſoever carefully reads will perfectly know, when the Gleet or Weakneſs he is afflicted with, ſucceeds a Venereal Injury, whether all the Malignity of the Foul Diſeaſe is intirely eradicated or not.

Note, Ask only for a 6 s. Pot of Balſamick Electuary.

The uncommon Succeſs, above Forty Years laſt paſt, of the ſo much famed and only true Original
ROYAL CHYMICAL WASH-BALL,

FOR beautifying the Face, Neck and Hands; hath induced many Envious Perſons, not only in every Part of London, but in many Places in the Country, to ſell a Counterfeit White Ball (which may prove prejudicial, as well as ineffectual) in Imitation of the true ones.

To prevent as much as poſſible any Miſtakes in Prejudice to our Cuſtomers, we give this ſpecial Notice, That the True Sort are now ſold only at Mrs. King's Toyſhop, the Blue-coat Boy, againſt the Croſs-Keys Tavern in Cornhill; and (ſince Mrs Giles's Deceaſe) by Mrs. Dunn, a Miliner, at the Blue Ball near the Inner Temple Gate in Fleet-ſtreet. Price 1 s. each Ball, or 12 to the Dozen; but no Allowance for leſs than 12 Balls at a Time, nor will they ever be ſold any where elſe, except Notice be firſt given in theſe Advertiſements of it.

Their true and real Virtues have been ſufficiently atteſted in all the Years that they have been Sold by Publication, and the more ſo, as they are ſtill more than ever uſed and admired by both Sexes of the beſt Quality, and many Thouſands of Gentry and others, for making the Skin ſo delicately ſoft and ſmooth, as not to be paralleled by any Waſh or Waſh-ball, &c. of any Kind or Form; for theſe Balls are indeed real Beautifiers of the Skin, by taking off all Deformities, as Tetters, Ringworms, Morphew, Sunburn, Scurf, Pimples, Pits, or Redneſs of the Small-Pox, and keeping it of a laſting and extream Whiteneſs; they ſoon alter red or rough Hands; are admirable in ſhaving the Head, not only giving a moſt exquiſite Sharpneſs to the Razor, but ſo comfort the Brain and Nerves, as to prevent catching Cold. They are of a grateful and pleaſant Scent, without the leaſt Grain of Mercury, and may be eaten for their Safety.
